

UNIVERSAL 2000 GRAB BAR

Our challenge was to design a grab bar to meet the requirements of design simplicity, sensible safety, durability and convenience for the user. Further, we needed a grab bar that fit most of the contoured bath tub surfaces blending inconspicuously with the esthetics of the design—a tall order at best.

The *Universal 2000 Grab Bar* not only meets, but has exceeded the requirements set forth. By simply rotating the ends on the grab bar rod, the bar seat snugly against the tub surface on matching or similar contours.

This enables you to be somewhat selective as to the grab bar location within the tub's inner surface or tub ledge. The rigid mechanical bond of the Universal 2000 Grab Bar to the tub wall ensures a lasting and safe attachment as show in the diagram below.

The *Universal 2000 Grab Bar* is currently available in polished chrome, polished brass or in a chrome/brass mixed finish. It is priced friendly for the user. When ordering, please specify the correct catalog numbers and item description provided below.

CAT. NO.	DESCRIPTION	QTY.
00134-1	Grab Bar, CHROME	2
00134-2	Grab Bar, POLISHED BRASS	
00135-1	Grab Bar End, CHROME	4
