

INSTALLATION INSTRUCTIONS

Tools and Parts

TOOLS NEEDED:

Gather the required tools and parts before starting installation.

- Phillips screwdriver

Location Requirements

⚠ WARNING

Explosion Hazard

Keep flammable materials and vapors, such as gasoline, away from beverage center.

Failure to do so can result in death, explosion, or fire.

To ensure proper ventilation for your beverage center, allow for a 1/4" (6.35 mm) space on each side and at the top. When installing your beverage center next to a fixed wall, leave 2 1/2" (6.35 cm) minimum clearance on each side to allow for the door to swing open.

NOTE: It is recommended that you do not install the beverage center near an oven, radiator, or other heat source. Do not install in a location where the temperature will fall below 55°F (13°C). For best performance, do not install the beverage center behind a cabinet door or block the base grille.

Electrical Requirements

⚠ WARNING

Electrical Shock Hazard

Plug into a grounded 3 prong outlet.

Do not remove ground prong.

Do not use an adapter.

Do not use an extension cord.

Failure to follow these instructions can result in death, fire, or electrical shock.

Before you move your beverage center into its final location, it is important to make sure you have the proper electrical connection.

Recommended grounding method

A 115 Volt, 60 Hz., AC only 15- or 20-amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your beverage center be provided. Use an outlet that cannot be turned off by a switch. Do not use an extension cord.

NOTE: Before performing any type of installation, cleaning, or removing a light bulb, unplug beverage center or disconnect power.

Unpack the Beverage Center

⚠ WARNING

Excessive Weight Hazard

Use two or more people to move and install beverage center.

Failure to do so can result in back or other injury.

Remove the Packaging

- Remove tape and glue residue from surfaces before turning on the beverage center. Rub a small amount of liquid dish soap over the adhesive with your fingers. Wipe with warm water and dry.
- Do not use sharp instruments, rubbing alcohol, flammable fluids, or abrasive cleaners to remove tape or glue. These products can damage the surface of your beverage center. For more information, see "Beverage Center Safety."
