the Oracle™ 
café quality to your home without the barista

the Smart Oven®

with Element IQ™

The 1800 watt countertop oven that does the thinking for you. Automatically adjusts the independent heating elements ensuring an exact cooking process. 9 menu functions suggest the ideal temperature and time, and the oven remembers them for the next use.

Toasts evenly, makes delicious cookies, bakes perfect pizza, and roasts succulent meat.

The convection option speeds your cooking time by as much as 30%.

Product Dimensions: (L) 18.5" x (D) 16.25" x (H) 11.25" · 17lbs

Capacity 6-slice toast
13" (33 cm) pizza capacity
0.8 cu ft (.02 cu m) interior

Element IQ Element IQ™ puts the power where it's needed most. For each of the 9 pre-set programs, Element IQ™ delivers the right power at the right time and when adjusted to taste, it even remembers.

Convection An inbuilt fan that circulates the hot air within the oven. It speeds the cooking process by stripping away the cold air that surrounds your food.

Pre-set Functions 9 pre-set programs, Toast, Bagel, Bake, Roast, Broil, Pizza, Cookies, Reheat and Warm.

Nonstick Cavity Coating The walls on the inside of the oven feature a non-stick coating for easy cleaning.

Additional Features Function Dial
Time Dial
Temperature Conversion Button
Frozen Foods Defrost Button
